The Key to our beginning...

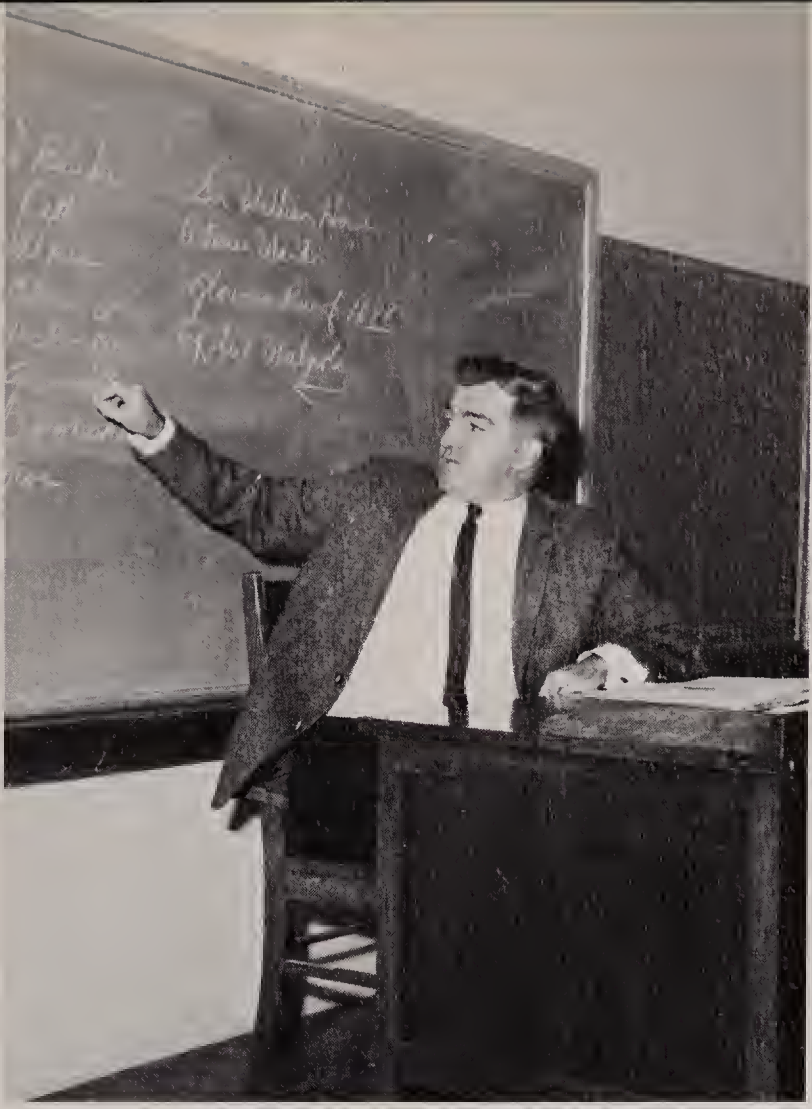
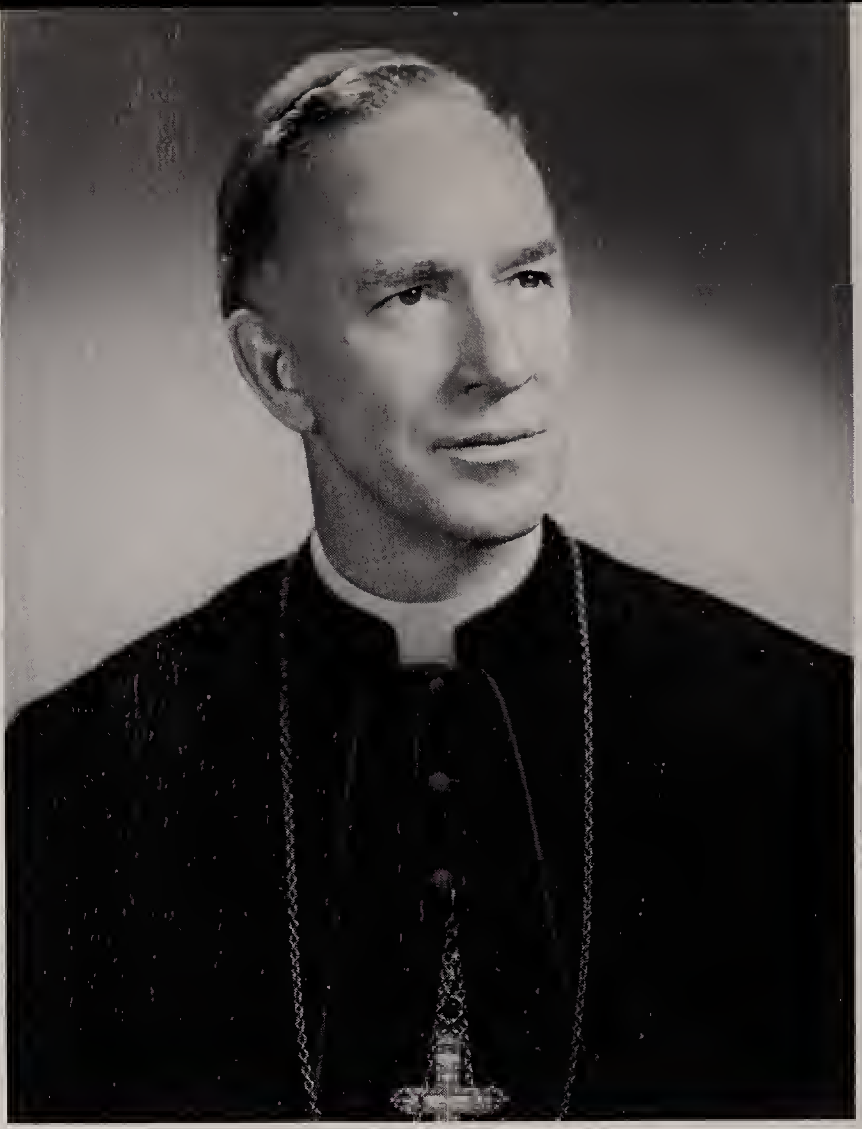
Dedication

To other classes before us he was but a coach, but we knew him from the start as both coach and teacher. History is his field, and baseball his sport. To each he has brought during these four years, his dedication to the molding of young men's minds and characters and a special spirit all his own. It will be a long time before we forget "G.W." or "the torch of truth," and it will be a long time before we forget him. And so it is that we, the class of 1966, dedicate our yearbook to a man we all respect: *Mr. Robert F. Flagg.*





Keys to our Spiritual Life

RESPICE AD MARIAM

To the class of 1966:

A key is by its very nature and purpose an instrument for opening up and permitting us to enter through a door or gate. Most often and in the literal sense, it permits us simply to enter a building, a room or some kind of enclosure. When we speak of spiritual keys, however, we immediately think in much broader terms — of keys which not only open the way into a previously locked area, but usher us into a completely new way of life. We think of keys which are not merely instruments to be used once or even only occasionally, but constantly.

Actually, you have known and used these "keys" since childhood. You have perhaps learned to call them by other terms, such as means of grace. They are the Sacraments, the liturgical worship of the Church, especially the Mass, prayer and works of penance. Through the first of them, Baptism, you were ushered into a way of life which is a sharing in God's own life, a vital, intimate and mysterious, though very real, union with Christ. In the intervening years, your continuing use of the other "keys" has nourished, fostered and, if it were lost, restored this precious life.

As you now prepare to enter the years of young adulthood, it seems important to emphasize that this life as well as the "keys" which usher us into it are not intended for our selfish or even our exclusive use. Our Christian vocation is by its very nature a vocation to the apostolate — to be witness to Christ, to the way of life which He taught and lived, and to which He has called us, in such manner as to make its truth, goodness and beauty manifest to those around us. Constant and continuing union with Christ is necessary in order to fulfill this demand of our vocation, for as Christ Himself has told us: "Without me, you can do nothing." In like manner, equally constant and fervent use of the "keys" which nourish and sustain that union, especially the Eucharist, is essential to a fruitful apostolate.

In recent months, the decrees of the Second Vatican Council have given us a new perspective of the scope, meaning and dignity of our Christian vocation. The documents on The Church, the Sacred Liturgy, Ecumenism and the Apostolate of the Laity are especially pertinent to the needs and demands of our times. They, too, may be regarded as "keys," instruments for opening up a new era of Christian witness and Christian engagement in the mission of the Church to men. They deserve careful study and serious attention by all our people, but especially by those, who like you, have the advantage of a Catholic education. The Council's aim of Christian renewal in the world of our day will depend in great measure on how well the people of God understand and make use of the "keys" or directives which it has set forth for the more effective engagement of all of us in the work of witnessing Christ to the world.

Sincerely yours,

+Bernard J. Flanagan

Bishop of Worcester

"You, however, are a chosen race, a royal priesthood, a holy nation, a purchased people, . . . a holy priesthood to offer spiritual sacrifices acceptable to God through Christ."

"Speak to the whole Israelite community and tell them: 'Be holy, for I, the Lord your God, am holy . . . You shall love your neighbor as yourself.' "

"We, your ministers, as also your holy people, offer to your supreme Majesty . . ."

"Because the bread is one, we though many, are one body, all of us who partake of the one bread."

Keys to Education

The Graduates of 1966 have chosen a timely theme for their Yearbook: the Key.

The world has been offered a new key at the end of Vatican II. It is made up of the different Constitutions issued by the Council Fathers. They are meant to open the door to a full life in the modern world.

The Christian has a vocation. He has been called to Christ who incorporates him into the People of God. He is our God and we are His People. We live from His life and we share His mission of bringing peace and unity to the world.

This has been true since the first Coming of Christ. However, Christianity is vital and even in the process of development and clarification. In our day, good Pope John called this "Aggiornamento." Vatican II was to prepare the way for the fulfillment of the Church's mission in the modern world. In our day, it would be the Key to true peace and unity in Christ.

The Graduates of 1966 hold this Key in hand.

Keynotes

JUNE, 1966

Volume I Number 1

ECUMENICAL COUNCIL

1962 — The 21st Ecumenical Council opened in Vatican City, Italy, under the leadership of Pope John XXIII on October 11, 1962. The purpose was to bring together all faiths and to change some aspects of the Church's liturgy for emphasis on participation in the Mass.

CUBAN CRISIS

1962 — President Kennedy announced over radio and television a quarantine on Cuba on October 22. Discovery by U-2 planes of missiles capable of reaching a majority of U.S. industrial centers brought on the quarantine.

EARTHQUAKES IN IRAN

1962 — In Western Iran tragedy struck when a series of earthquakes wrought havoc over the countryside. Nearly 20,000 people were killed or injured.

YANKEES WIN WORLD SERIES

1962 — The New York Yankees won the World Series, defeating the San Francisco Giants 4 games to 3, after a delay of almost a week due to torrential rains in San Francisco.

MAN OF THE YEAR

1962 — Pope John XXIII was named "Man of the Year" by *Time Magazine* because of his unflagging contribution to world and religious peace.

NEW SECRETARY - GENERAL AT THE U.N.

1962 — U Thant, after an interim term of one year, was elected by the United Nations for four years as Secretary-General. He succeeded Dag Hammarskjold, who was killed in a plane crash over South Africa.

CUBAN PRISONERS RANSOMED

1962 — The year ended on a bright note with the airlifting of 1,113 prisoners from Cuba on December 24, in exchange for $53 million worth of medicine.

PRESIDENT ADDRESS CONGRESS ON CIVIL RIGHTS

1963 — On February 28, President Kennedy presented a Civil Rights message to the 88th Congress. In the address he asked for consideration of new voting-rights, education, and employment for the minority groups of the U.S.A.

THRESHER LOST WITH ALL HANDS

1963 — On April 10, off the coast of Massachusetts, the atomic submarine *Thresher* sunk during test dives with all 129 hands aboard. The *Thresher* was the deepest diving submarine in the Navy. The bathysphere *Trieste* was called in to find the sunken hull in over 8,000 feet of water, but only fragments of the $45 million sub turned up.

TROUBLE IN THE SOUTH

1963 — During the summer months of '63, unrest in the South flared up in several Alabama cities. Birmingham was cited as being the center of all the trouble when a church was bombed and four Negro children were killed.

POPE JOHN DIES

1963 — Pope John XXIII died in the Vatican at the age of 81. He was the 231st pope in the history of the Church. The cause of death was a malignant stomach tumor.

MARCH ON WASHINGTON

1963 — Civil rights workers marched on Washington, D.C., on August 28 in protest of unfair voting practices and job opportunities in the South. Over 200,000 freedom marchers assembled in the nation's capital.

PRESIDENT KENNEDY ASSASSINATED

1963 — On November 22, John F. Kennedy, our 35th President, was assassinated in Dallas, Texas. He was struck twice while riding in a motorcade through downtown Dallas. He was the fourth U.S. President to die at the hands of an assassin.

Hours later Lee Harvey Oswald was arrested after killing patrolman J.D. Tippit. Oswald, a pro-Communist, one day later was killed by Jack Rubenstein (Jack Ruby) and died at Parkland Hospital.

Vice-President Lyndon B. Johnson was sworn in as President two hours after J.F.K. had died.

On November 25, John F. Kennedy's remains were buried with pomp and ceremony in Arlington National Cemetery. Dignitaries from almost every country of the world were present to mourn the loss of perhaps the most dynamic person of our time.

CIGARETTE SMOKING CONDEMNED

1964 — On January 11 the United States Surgeon General Luther S. Terry released a report sponsored by the government which announced that cigarette smoking is a definite health hazard and a proved contributor to lung cancer, heart disease, and other harmful diseases.

CRISIS IN VIETNAM

1964 — The Vietnam crisis grew with a coup d'etat toppling a military junta which had deposed Ngo Dinh Diem. Several more coups followed until an election set up a coalition government. The U.S. aided the South Vietnamese in their struggle to prevent this election from being tampered with by Red Chinese infiltration and terrorism.

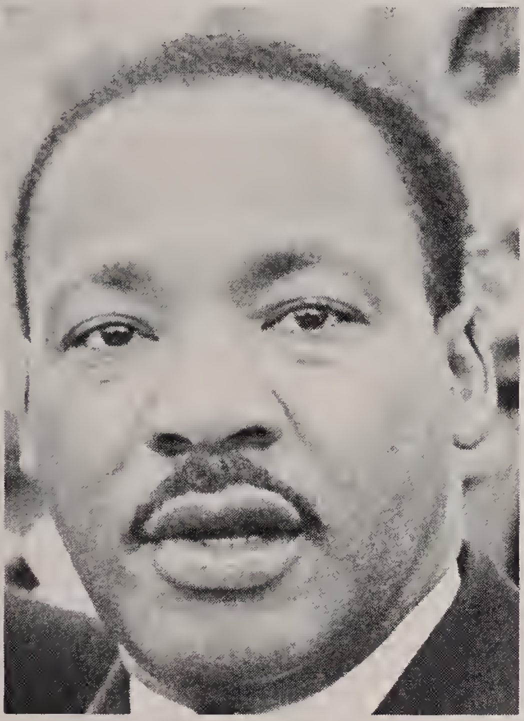
CLAY BOXING CHAMPION

1964 — Cassius Marcellus Clay, 22, the lightning lip boxer from Louisville, Kentucky, was proclaimed the heavyweight champion of the world when Sonny Liston failed to answer the bell for the seventh round.

ALASKA STRUCK BY MAJOR QUAKE

1964 — On March 27, entire southern Alaska was rocked by the severest earthquake ever recorded. Pieces of land disappeared beneath the sea, and entire streets and blocks of buildings were raised and lowered by the shifting earth. At least 66 people were killed and 100 injured; property damage soared above $500 million.

DR. KING MAN OF THE YEAR
1964 – Martin Luther King, the mainstay in the civil rights protests who had been awarded the 1964 Nobel Peace Prize for his work in furthering the cause of the Negro, was named "Man of the Year" by *Time Magazine.*



TOKYO OLYMPICS
1964 – Over the National Stadium in Tokyo the Olympic flame was lit, and the Summer Olympics began. A total of forty-five world and Olympic records were shattered. The most astonishing were the victories of Billy Mills in the 10,000 meters and of Bikila Abebe of Ethiopia, who repeated in the marathon despite a recent operation.

ESCORT SHIP BOMBED BY VIET CONG
1964 – On May 2, a U.S. Navy escort carrier, the USS Cord, was bombed and sunk in Saigon Harbor by Viet Cong terrorists and triggered immediate retaliation by the U.S.A. Our involvement in the Vietnamese war was firmly resolved by this act.

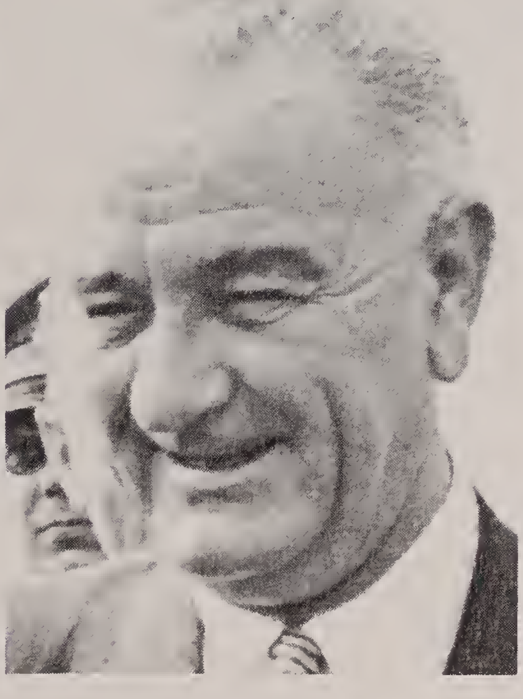
REPUBLICAN NOMINEES CHOSEN
1964 – Barry M. Goldwater and U.S. Representative from New York William F. Miller were nominated at the Republican Convention in the Cow Palace in San Francisco. Mr. Goldwater turned out to be the most talked-about politician during the entire presidential campaign.

BIRTH OF THE BEATLES
1964 – U.S. teenagers found some new idols. The music of the long-haired Beatles rocked over every radio and record player. In records alone the Beatles have net at least $1 million a month, and this is not including the money made from movies and world tours. The new music of the times is all coming from England.

CREATOR OF JAMES BOND DIES
1964 – Ian Fleming, the creator of James Bond, agent 007, died in the West Indies August 12. Among his books, movies were made of four: *Goldfinger, Dr. No, From Russia with Love,* and *Thunderball;* and all have resulted in a new worldwide cult of James Bond.

NEW LAND SPEED RECORD
1964 – Art Arfons, driving his "Green Monster," virtually flew across the Bonneville salt flats at a speed of 536.71 mph, surpassing Craig Breedlove's mark of 526.26 on October 27.

ELECTION DAY
1964 – On November 3, the nation went to the polls to cast its votes for either Lyndon Baines Johnson or Barry M. Goldwater. Johnson came out on top, receiving more than sixty per cent of the popular vote.



WALK IN SPACE
1965 – In April Gemini 5 was launched, and the two astronauts in the capsule, Ed White and James McDevitt, proceeded on an arrangement to walk in space.

LOS ANGELES RIOTS
1965 – In August the racial issue took on a new dimension. For one week Negro riots in the Watts section of Los Angeles, a Negro ghetto, wracked six square miles of the city. Much looting and killing was the result. Fires raged out of control and the National Guard was met with stiff resistance from gun-toting Negroes. When the riot was quelled, much of the area was in shambles, and the plight of the Negroes remained unsolved.

BLACKOUT OVER THE NORTHEAST
1965 – On November 16 at 5:17 P.M. the lights went out – all over the Northeast. From Toronto, Ontario, to New York to Boston, all the lights were out. Business and most other activities came to a standstill. The lack of electricity lasted for forty minutes in some cities and six hours in others. The cause of the failure was due to a break in a main power line which feeds all electrical companies of the Northeast.

GEMINI 7
1965 – Late in November astronauts James Lovell and Frank Borman rode Gemini 7 through space for fourteen days, breaking all Russian and American records for flight endurance. Also spectacular during the trip was the rendez-vous with Gemini 6 in space – with the two capsules no more than a few feet apart.

GENERAL WESTMORELAND MAN OF THE YEAR
1965 – General William Westmoreland was named "Man of the Year" by *Time Magazine* for his outstanding work in keeping up the morale of the fighting troops in South Vietnam.

RUSSIANS ACHIEVE SOFT LANDING
1966 – February 4, the Russians finally accomplished a soft landing on the moon. Luna 9 touched down after several days of flight, to the cheers of the whole world.

N.Y. TRANSIT STRIKE BEGINS THE NEW YEAR
1966 – A strike that shut down subways and buses hit New York as Mr. Lindsay began his term as mayor on Jan. 1. It was the first such paralysis of mass transit in the city's history. The transit tie-up left 6 million riders without public transportation. There was rush-hour chaos, day after day until the strike was settled on January 13. Business losses from the strike exceeded 100 million dollars a day.

HYDROGEN BOMB RECOVERED OFF COAST OF SPAIN
1966 – April 4, a U.S. H-bomb, packing a one-megaton charge, was plucked from the bottom of the sea 80 days after it was lost when a B52 bomber and a tanker plane collided while refueling. The small submarine rescue vessel Petrel hauled the bomb by a CURV, a torpedo recovery vehicle flown to Spain from Pasadena, Calif.

The Student Council of 1965-1966 returned from the summer vacation faced with a difficult task. With the new representation system, the members worked throughout the year painstakingly, analysing the Council's role in the school in an effort to improve that role itself.

Meetings were held with both the administration and the faculty, and an opinion poll was taken of the student body. After evaluating its findings, the Council rewrote its constitution, setting a precedent for active and meaningful Councils in the future. The eighteen elected members plan the traditional APS activities, such as the Fall and May dances. The Council is also the "voice" for student's petitions and suggestions. The main problem faced by the Council was proving itself to the school.

After nine months of working together, the representatives came to know each other well and gained valuable leadership experience while serving their school.

JUNIORS: *SEATED:* William Galanes, Robert Longden, Jay Bagdis; *STANDING:* Thomas Ash, Stephen Gaffney, James Lukin, Stephen Pisinski.

NATIONAL HONOR SOCIETY

Members of the National Honor Society have qualified for membership by their excellent records in scholarship, leadership, character and service. These qualities mark the attainments of honor which constitute the basis of educational ideals. The Assumption Preparatory School chapter of the National Honor Society of Secondary Schools was chartered on March 1, 1945, and based its membership on the following qualifications: the candidate must be in the upper eight percent of the junior class, second semester; the upper ten percent of the senior class, first semester and the upper fifteen percent of the same senior class in the second semester. Lastly, a candidate must attain a minimum average of eighty percent.

The obligation of the NHS's members is to maintain their record of achievements in the four designated areas. Through a continued and individual search for truth in scholarship, (the use of the power of the personality toward progress); in leadership, (a tool by which to be effective); in character, (a beginning and end to education) and in service, (a practical means of applying talents), a member of the NHS becomes a more meaningful citizen.

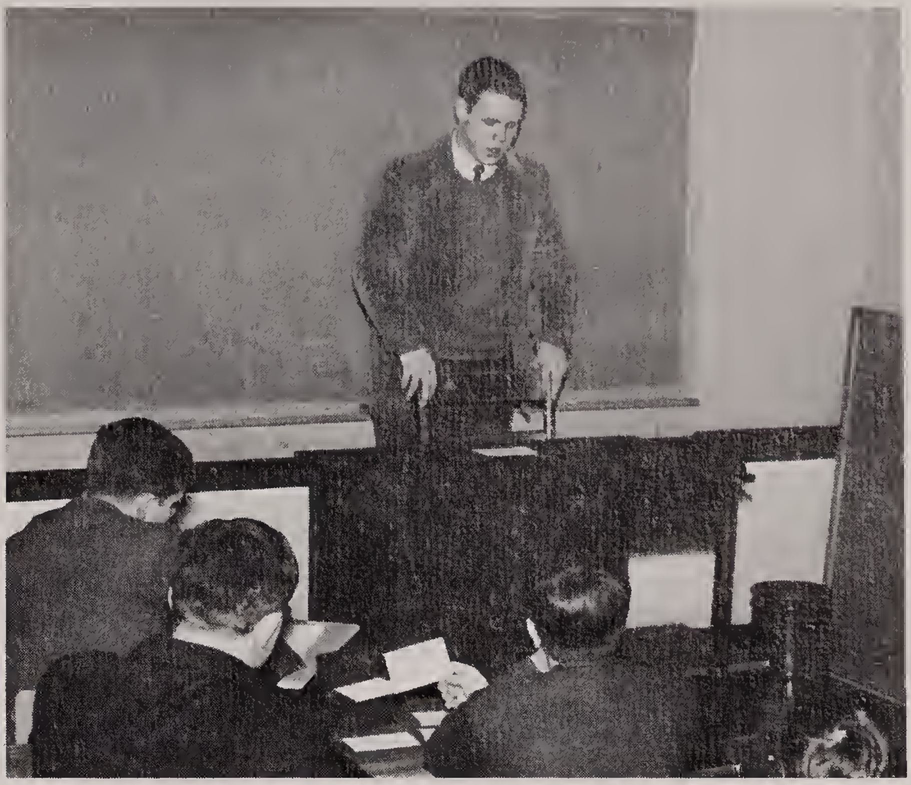
DEBATE CLUB



Assumption's debating society dates back to 1953, and has as its purpose the stimulation of interest in debating among the student body, and the development of accomplished speakers through participation in interscholastic debating and other forensic programs.

The Learned Blacksmiths participate on three levels of debate with a varsity team composed of seniors, an intermediate team of juniors, and a novice team of freshmen.

The active debating season begins in January and continues throughout the second semester when high school debaters throughout the country will be skillfully applying the techniques of debating in lively and sometimes heated interscholastic tournaments.

Three hundred eighty active students tend to create news. Since 1939, school events have been noted and reported by the student newspaper, now called the *Heritage.* Its staff meets after publication of each issue, pooling collective talents and information in evaluating the current paper, as well as in planning the next issue. Possible articles concerning current school events are discussed, evaluated, and finally accepted or rejected for the upcoming publication.

Topics for editorials dealing with school problems or current events demand more thought than those of other articles, for it involves passing judgment on issues instead of people. The *Heritage* attempts this feat six times each year, and tries to think in terms of solutions rather than diatribes. Objective presentation, as opposed to insipid placation, is the much desired goal. Obviously, such a challenge yields its crop of failures as well as successes.

Technical snags as well as questions involving content, continually beset the editor-in-chief, who must spend many hours in making the page-plans for any one issue. This chore places demands on his skill in choosing and cropping photographs, checking articles, and measuring galley proofs. Much research by his staff and writers must be done in order to present factual and appealing copy. All of them give many hours of their time to present their readers with the *Heritage.*

PARIS PAR ICI

Paris Par Ici, commonly known as the French Club, is made up of students who can speak and understand French. In the informal and relaxed atmosphere of the weekly meetings, club members engage in group singing and in discussions on various topics. Lectures are also given by the moderator or guest lecturers. The students become acquainted with France, her people, customs, culture, civilization, and language.

HISTORY

CLUB

The curriculum at the Prep calls for history courses to be offered in the freshman, and senior years. To fill the gap between freshman and junior years, Mr. Dubuque has initiated and monitored the Sophomore History Seminar. The goal of the club is primarily to instill an interest and an understanding of history and its personalities and events into the members. This goal is accomplished through weekly meetings and a program of guest speakers. All in all, the History Club serves to strengthen the history curriculum here at the Prep, and it enables the student with a particular interest in history to further enrich himself.

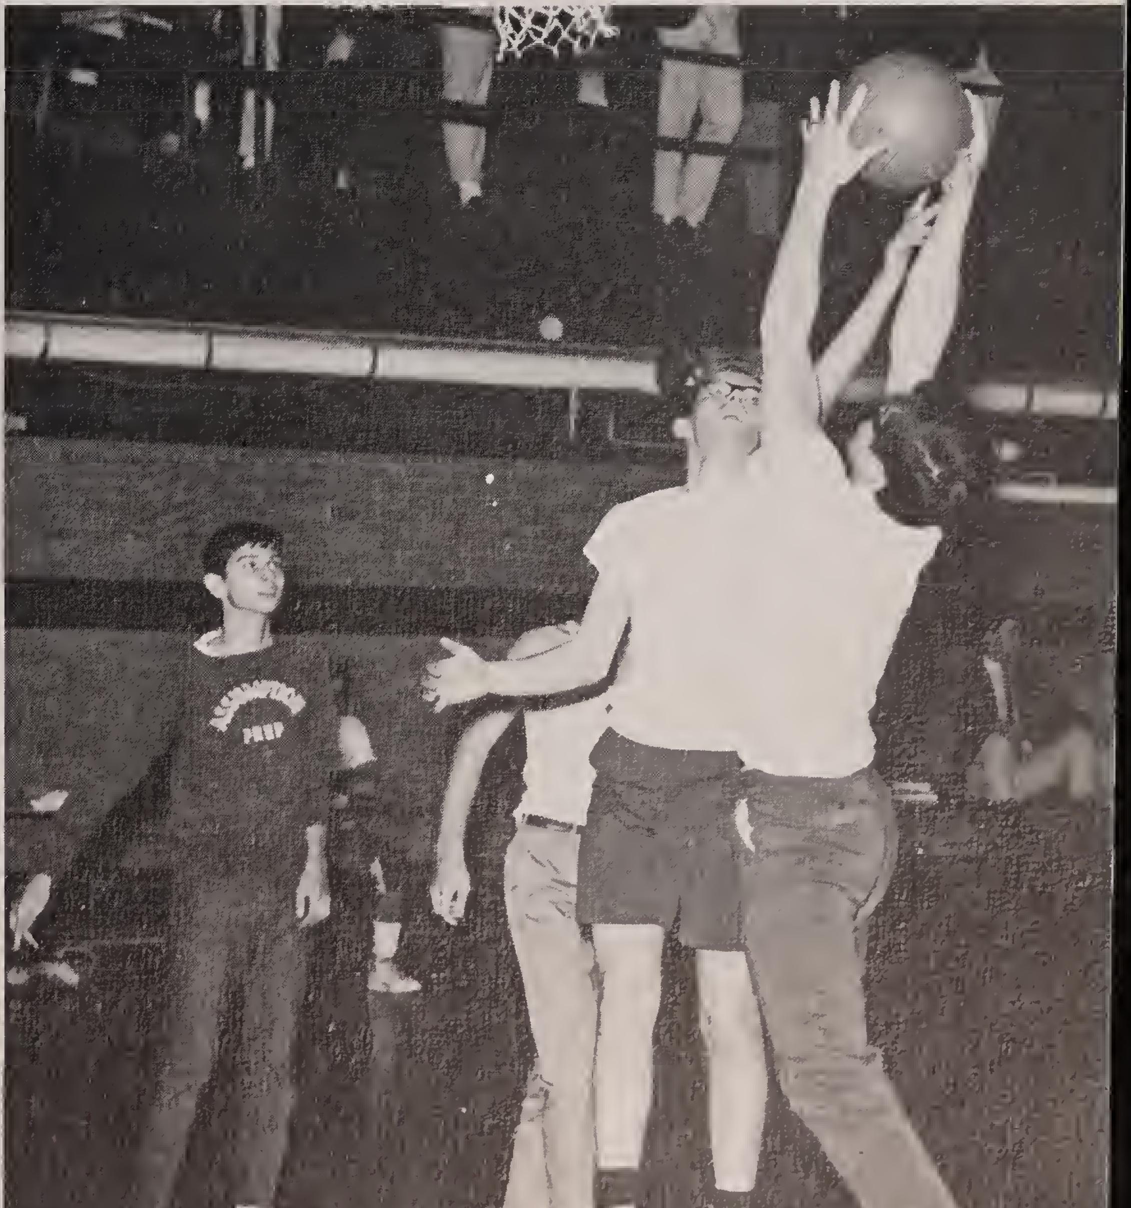
INTRAMURAL ATHLETICS

To allow the student who is not necessarily athletically inclined to participate is the goal of the intramural program at the Prep.

This year's program began with "flag-football" and a tennis tournament. For the winter, the program was forced to move indoors, into the limited confines of the gym. Regardless of this handicap and the obvious shortage of time for the program, four tournaments were successfully completed: the "two-gun" basketball, the five-on-five basketball the inter-class ping-pong, and the volleyball. The volleyball tournament was climaxed by a student-faculty game. In the spring the round-robin volleyball tournament was held.

Each tourney ended with the presentation of trophies to the winners in the dining hall.



LITURGICAL CHOIR

Music is an essential element of the liturgy. Since the school's founding the Liturgical Choir has served as the nucleus of singing at the Community Mass. The current spirit of renewal and ecumenism demands more than the traditional chant accompaniment. Therefore, the choir, under the direction of Rev. Gilbert Chabot, A.A., meets weekly to prepare a program of music that complements the liturgy.

MATH

CLUB

With its members chosen from among promising students who wish to join, the Math Club, officially known as Mu Alpha Theta, has entered the Worcester County Mathematics League. With other area schools who are members of this league, the club participates in four annual meets. Under the guidance of the Mathematics Department, its members hold meetings every Saturday to prepare for upcoming meets and to determine which members will participate in them. The club gives the school's mathematically inclined students the chance to further themselves in their particular field of interest.

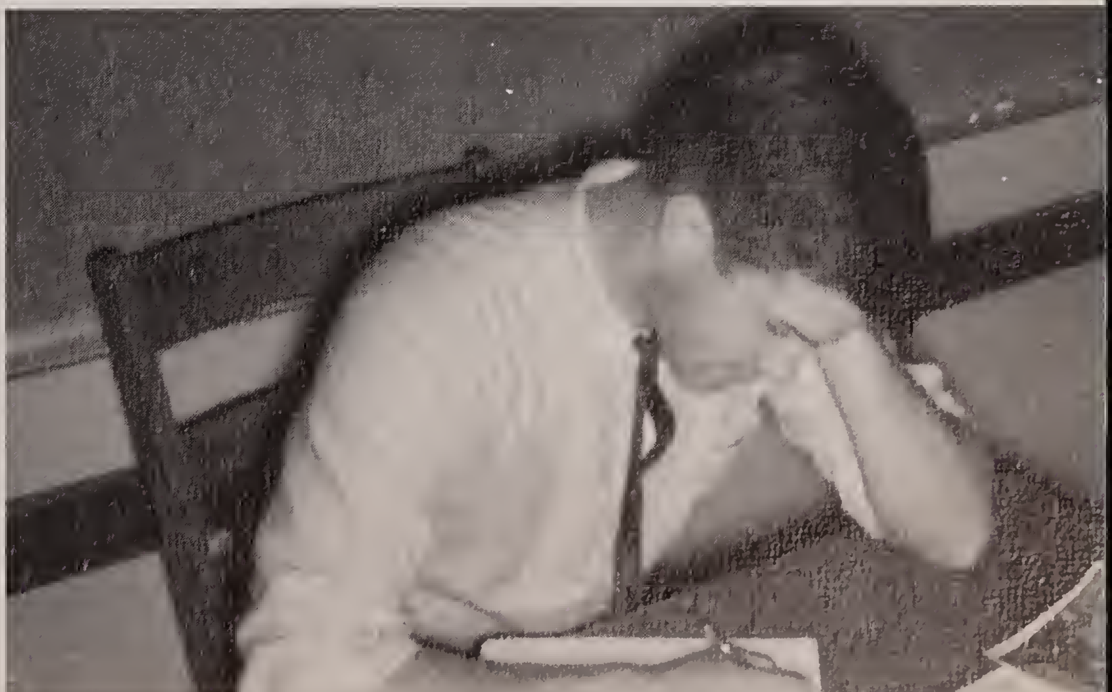
Every year the senior class is faced with the task of putting out a yearbook within a period of less than nine months. This job is the work of the *Memini,* which consists of two editors elected by their classmates and of their staff, of which any senior can be a member. Work begins in earnest in early October with the compiling of pictures, the composing of write-ups, and the arranging of layouts. This activity requires daily work on the part of its staff, from October to June, with the brunt of the work falling on the shoulders of its editors. Hopefully the result is a book rich in memories for its readers.



AMATEUR RADIO CLUB

The Assumption Amateur Radio Club (APARC) was officially chartered in 1961 by a group of students interested in Amateur Radio. Two veteran "hams", Richard Formato '64 and Paul Clement '64 instructed several students in the technique of radio communications as well as in the basic elements of radio. Since then, the club has flourished to the point where it now includes a workshop laboratory conducted in the Prep's Physics laboratory. The present Amateur Radio Club aims to provide a background for students who will possibly pursue a technical career or who are merely interested in Amateur Radio as a hobby.

SERVICE CORPS

The Service Corps is organized for the purpose of helping people in Worcester and surrounding areas who "ain't got it so good." In the spirit of the late Doctor Tom Dooley, the first teams entered active service in March, 1961 at Nazareth Home, Leicester. These teams visit the Home on Wednesday afternoon for one hour, and provide companionship and recreation for some twenty emotionally disturbed youngsters. Another team has been formed on the same principles to work at John Augustus Hall, West Boylston.

The volunteer can help others to better themselves or develop a happy outlook on life. His work, however, will be limited and often he will be dealing with intangibles that show no immediate results. He will find other rewards in his work, of the type mentioned by Dr. Dooley in a letter to a friend: "Dedicate some of your life to others . . . It will be an exhilirating experience because it is an intense effort."

Y.C.S.

The Young Christian Students, or YCS as it is commonly known, is a student activity designed to promote and develop the lay apostolate. YCS bases itself on the role of the layman in the Church. The challenges of this role are reflected in the organizations commitment to form lay apostolates for a lifetime and in so doing to more realistically bring Christ into the world. Since 1945, YCS, here at the Prep, has provided both guidance and faith necessary to meeting these challenges. The method of YCS: observe, through social inquiries; judge, through finding Christian sense in everyday life; and act, to "be Christ-like" is the basis of the movement.

This year, through the guidance of Fr. Edgar and Fr. David, the purpose of YCS has been directed, through personal development, toward building Christian men to meet modern challenges. The challenge of Vatican II, has been and will remain, the greatest source of development for YCS throughout the country; and particularly here at Assumption where education becomes the process of Christian thinking.

Football fortunes at Assumption Prep took an unexpected turn for the better during the 1965 gridiron season. This year's team started strong and finished strong, compiling a record of 2-2-1. The season could just as well have ended with the Monks sporting a 4-1 record.

The losses came at the hands of Thayer Academy, 0-27, and Marianapolis Prep, 8-12. One of the wins was an upset victory over St. Sebastian's, who the year previous had clobbered the Monks, 0-19. This year, however, the Blue and White eleven fought to a 22-16 victory. Instrumental in this prime upset were senior halfback, Dick Boucher, and junior backs, Dave Eddy, Dick Dodge, and Earl Lane. Another win came in a 22-6 romp over Phillips Andover, with Dick Dodge, Dick Boucher, and John Manning, figuring in the scoring.

By far the most memorable games of the season was a pulsating 42-42 tie with Milford Academy. In a fantastic scoring duel, the Monks lost a 20-0 lead, but staged a brilliant comeback, scoring 16 points in the final four minutes. In the last game of the season the Monks nearly came up with a repeat performance against a potent Marianapolis team. Their late rally failed, however, and the Prep finally succumbed, 8-12.

At the end of the season, captain and star defensive end, Dick Lane, and hard-running Dick Boucher were given honorable mention on the All-New England Prep School Team.

Awards given by the school went to: Dick Lane, Most Valuable Player; Dick Boucher, Best Senior; Dave Eddy, Coaches Award; Dick Dodge, Best Junior; Steve Sylvestro, Best Sophomore; Charles Gagnon, Best Freshman.

In the fall of 1965, Cross-Country was back at Assumption for the second year in a row. In its seventh year of existence the team earned its first winning season with a record of 5-2.

The Prep harriers opened the season with an impressive 17-46 victory over Thayer Academy. They were to go 4-0 against Prep School competition, running to easy wins over Lawrence Academy, Winchendon School, and Marianapolis Prep. At the Marianapolis meet, the Monks took the first five places for a perfect score.

In high school competition, the Monks encountered their only losses, at the hands of David Prouty and St. John's. They also came up with a one-sided win over Holy Name. All in all, it was quite a successful year for the Monks and for Coach Robert Cormier, who was in his first year at the helm of the Prep harriers.

Records for the school's 2.4 mile course were set and reset this year. At the end of the season, Pete Walsh, co-captain, held the school record with a time of 13:33. However, two runners from David Prouty High School ran the course in 13:17.

Runners honored at the end of the season were Ronald Menard, Most Valuable Player Award, and Jay Bagdis, Coach's Award.

ASSUMPTION

As the 1965-66 Prep basketball team went into its season, few held an optimistic outlook for their success. With only one returning letterman having considerable varsity experience in the forecourt, the Monks appeared to be in serious trouble in the height department. However, to the surprise of many, these Prep hoopsters parlayed a combination of blinding speed with scrappy defense into one of the most successful Assumption seasons in years.

The Monks gave their first indications of what was to come by ripping off three impressive wins over potent Milford Academy, New Prep, and Providence Country Day. Solid team efforts were the key in these triumphs. They then headed for the Kingswood Invitational Tournament in Hartford, in which were entered some of the top Prep Schools on the East Coast. With John Gabriel coming off the bench to contribute 18 points, the Prep rolled past Hopkins Grammar of New Haven. In the semifinals, though, APS ran into a powerful St. Stephen's team from Alexandria, Va., and were decisively beaten. The following night, however, the Monks came up with a stunning upset over defending champion Williston Academy, to return to Worcester with third place.

Here, the Prep ran up a winning streak of eight games, all of which were easy victories. Included in their list of victims was Kingswood School, who had won the Kingswood Tourney by beating St. Stephen's. Instrumental in these victories was a sticky all-court press led by John Bouffard, Tom Grayman, and Mike Laska, which completely demoralized many opponents. Equally immense was Pete Cragan who continually dominated the boards over bigger and stronger opponents.

The Monks then suffered their first two losses against New England teams, at the hands of Cornwall Academy and Huntington School. But these Class A schools had been undefeated against Prep schools. In the Cornwall game, the Cavaliers simply had too much for the Monks to contain. They ran up a big lead then held off a determined Assumption rally to win. The Prep came up with one of its finest efforts in the heart-breaking two-point loss to Huntington. The Monks came back strong several times, but couldn't quite go all the way for the win.

During this period, the Prep added three wins over Moses Brown, Thayer, and St. Andrew's, to run their record to 15-3. As the Monks closed their season against Chesire Academy, they had been assured of a berth in the New England Prep School Tournament.

Publishing a YEARBOOK

Is As Simple As

A Y C

To the casual reader a yearbook is often simply an "album" of pictures with written text. Merely ink on paper . . . though nice to own and enjoy.

But to the staff and adviser the yearbook means much more. For yearbook work comprises a multitude of details: Layout, Art, Photography, Copy, Typography, Covers and Binding, (not to mention the small detail of money-raising). Highly technical and often time-consuming and a source of anxiety to a staff unless the publisher's representative is trained to give needed help and suggestions.

At American your publisher's representative is a member of the school's yearbook team. He is skilled in the many facets of yearbook work, having at his fingertips the answers to yearbook problems as well as a multitude of ideas. He is always there when you need him.

This is why we say "Publishing a Yearbook is as simple as AYC."
